AMP Capital Investors appoints Head of Investment Specialists, Listed Assets

AMP Capital Investors today announced the appointment of Andrew Lill to the position of Head of Investment Specialists, Listed Assets.

The appointment follows an extensive internal and external search to fill this new position, with Mr Lill to head a team of six investment specialists across Listed Assets. In addition to leading the Investment Specialist Listed Assets team, Mr Lill will also be the primary investment specialist for Fixed Interest.

Andrew Lill has 16 years of investment consulting experience and joins AMP Capital Investors from Russell Investments, where he was most recently Director of Investment Strategy for their Australian operations. In this role Mr Lill was responsible for all capital markets research and asset consulting advice given to institutional and retail clients in the region, and also for advising funds on optimal strategic benchmarks and the incorporation of new asset classes. Prior to joining Russell in 2002, Mr Lill was a partner and head of manager research at Lane Clark & Peacock's (LCP) London office and before this, an Investment Analyst with Watson Wyatt Investment Consulting in their London office.

AMP Capital Investors Business Director, Client, Product & Marketing Brian Delaney said this appointment reflects AMP Capital's continued investment focus on building investment capabilities for clients in the Asia Pacific region.

"I am very pleased to welcome Andrew Lill to our team, as he brings with him extensive technical knowledge across all asset classes through his strong research background. In addition to leading the Listed Assets Investment Specialist team, Andrew's deep understanding of fixed income means he is uniquely placed to provide our clients with valuable insights and technical expertise across a broad range of capabilities," Mr Delaney said.

Mr Lill said he was looking forward to joining AMP Capital Investors on 1 July 2009. "I am excited to join the team of well respected investment professionals and continue to build upon the excellent reputation AMP Capital has of being a leading provider of investment solutions."

Investment specialists have the vital role of facilitating information and knowledge between clients, the market and the investment team and help develop attractive investment opportunities for clients. Under the new structure, while the investment specialists will continue to be located within the investment teams, these key roles will be centralised to better ensure consistency of approach across all asset classes, and supports AMP Capital's strategy of better matching its resources to specific client needs.

Mr Lill will report to Brian Delaney, AMP Capital Investors Business Director, Client, Product & Marketing.
